

 **Important Notice for Millersville Utility Customers** 

Due to a technical glitch, our system accidentally sent out automated phone calls regarding past due utility bills to customers in the wrong billing zone.

If your utility bill is due on **September 30, 2025**, please disregard the call — **you are NOT past due**. Your payment is still due on **9/30/25**, as originally stated.

We apologize for the confusion and appreciate your understanding as we work to correct the issue.
